> *Join us on a journey back to your happy place in your body. It's time to feel lighter, more confident, healthier and more energised, without minimal calories or extreme workouts.*

A Note From *Our Founder*

Anna Wallace

BSc Food & Nutrition
Registered Associate Nutritionist

This is the reset I built from 10 years coaching women over 45.

I once struggled with my weight, starting each day with determination but often resorting to unhealthy habits like the Special K diet or just going hours without food.

Evenings would often end with takeaway, excessive eating, or alcohol to cope.

Feeling lost and unhappy, I believed I was the "fat" one in my family and didn't know how to change.

After hitting rock bottom, I enrolled in University to study Food and Nutrition. This decision transformed me. I lost weight and maintained it, even after pregnancy.

I founded The Weight Loss Academy, supporting over 50,000 clients globally over 10 years.

Our WLA Approach helps to burn body fat simply and flexibly, restoring confidence and eliminating sugar cravings.

If you're reading this, know that achieving your goals is possible, even if you've tried everything and feel like giving up.

Your journey matters, and like mine, finding the right weight loss approach can change everything.

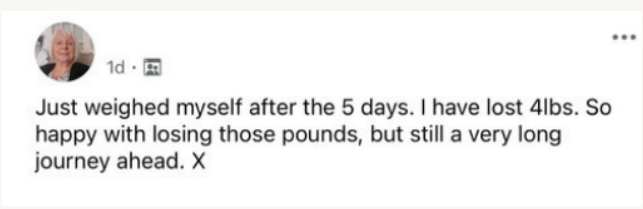
Hi Resetters, I've been watching all your lovely success posts pop up and decided to add my little success too. I've loved the 5 days of food (and water 🤩), i had a great week, felt very focused each day, with increasing energy. I didn't weigh myself bcuz i don't possess scales due to becoming obsessed in the past with how much i weigh rather than how i feel in myself.
I feel incredible today, the most postive in a long time, my clothes are more comfortable and am wearing a pair of jeans i couldn't sit down in 2 weeks ago 🤭
Wishing everyone continued success. We've got this ladies 🥰 x

Top contributor 1d ·

Yes just to say a massive thank you to WLA and the team. I can finally say today I did a weigh in and yesss drop another lb. So excited 😊. So 5lb in total onward and upwards. Of to the shops to stock up and continue. Good luck to all and thanks for having me xx

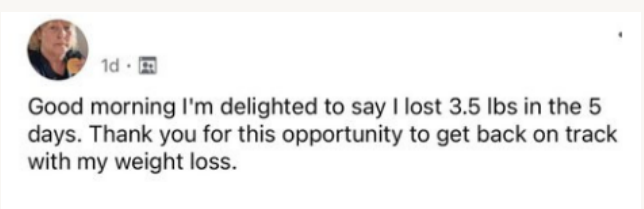
1d ·

Weighed myself this morning and I lost 4.2lbs. Thankyou for doing the reset Anna and for the support from the group. I know I must look at my portion sizes. When I made the meals for 1 I tend to put it all on my plate but when I multiplied it up for the family and just took what I need there was always at least one extra serving. I really enjoyed the meals and think the purple smoothie will be added to my food plan going forward.



1d ·

Just weighed myself after the 5 days. I have lost 4lbs. So happy with losing those pounds, but still a very long journey ahead. X



1d ·

Good morning I'm delighted to say I lost 3.5 lbs in the 5 days. Thank you for this opportunity to get back on track with my weight loss.

Important Tips for *Getting Started*

The 5 Day Fat Loss Reset meal guide can include whatever variation of the meal options you want, it's fully adjustable depending on the recipes and ingredients you like.

Pick the recipe you like most from the reset meal overview for each meal (breakfast, lunch, dinner and snack). Feel free to duplicate recipes that are easy to batch.

Feel free to swap each ingredient around. Or leave out ingredients you don't like. Season foods more if required.

Go with the flow of the recipes in the guide in terms of variety, or adjust and simplify by repeating meals more often. This will not impact results.

Meals

- Pick one breakfast for 5 days, or pick and choose from the guide if you want more variety.
- If unable to have one of the lunch recipes due to being out or busy, go for a protein-based salad, soup, or any egg dish.
- Repeat lunches more often if that's easier (e.g. an easy-batch recipe can cover multiple days).
- Always have a portion of protein in each meal. If having soup, have a piece of protein on the side such as a boiled egg or some meat / fish.

Drinks

- Aim to have only one milky coffee per day (i.e. latte / cappuccino). Tea and coffee with small amounts of milk are fine.
- Aim for 8 glasses of water per day approximately if you can (see the Drink Tips section for ideas on how to drink more water).

Snacks

- Aim for one bigger snack between lunch and dinner to manage appetite and sugar cravings. Snacking at other times of the day is fine, but only when physically hungry.

Portions

- If you feel it's too much food for you, don't eat it all. Listen to your body and don't eat just for the sake of eating.
- Eat until you've had enough and feel satisfied. Recipes are for 1 serving unless stated otherwise.

A note on perfection

- Don't expect perfection, just do your best. Five focused days beat five perfect ones you never start.
- If you slip up at lunch, the next meal is your chance to reset. Nothing is ruined.

The 5 Day Fat Loss Reset *Guidelines*

Stick to these eight simple principles and the reset will do the heavy lifting for you.

01

Eat breakfast

Within 1 hour of waking, every day.

02

Protein at breakfast

Sets satiety and steadies blood sugar for the day.

03

Protein at every meal

The single biggest lever for staying full.

04

Reduce processed foods

And added sugars, cut packaged shortcuts where you can.

05

3 meals + smart snacks

Eat 3 meals; snack only when truly hungry.

06

Hydrate

At least 8 glasses of water per day.

07

Move daily

Even a 20-minute walk counts.

08

Dairy-free at breakfast?

Add a scoop of protein powder to keep protein up.

The Reset *Meal Overview*

Breakfast Recipes.

RECIPE 01 · BREAKFAST

High Fibre Air Fryer Granola

Crunchy, naturally sweet, batched once and ready all week.

SERVES

4

TIME

20 mins

INGREDIENTS

- 80g oats
- 2 tbsp ground flaxseeds
- 2 tbsp mixed seeds (pumpkin, sunflower, etc.)
- 60g mixed nuts, roughly chopped
- 2 tbsp desiccated coconut
- 1/2 tsp ground cinnamon
- 20ml olive oil
- 30ml honey
- 1 tsp vanilla essence
- 40g goji berries

To serve

- 125g full-fat Greek yoghurt
- A portion of fruit of your choice

INSTRUCTIONS

01 Preheat the air fryer to 160C.

02 In a large mixing bowl, combine the oats, flaxseeds, mixed seeds, mixed nuts, desiccated coconut and cinnamon. Mix well so everything is evenly distributed.

03 Pour the olive oil, honey and vanilla essence into the dry ingredients and stir until evenly coated.

04 Line the air fryer basket with parchment paper and spread the granola mixture evenly (you may need to cook in batches depending on the size of your air fryer).

05 Cook for 10 to 12 minutes, stirring every 2 to 3 minutes for even cooking and to prevent burning.

06 Once golden and slightly crisp, remove from the air fryer, stir through the goji berries and allow to cool completely. It will crisp up further as it cools.

07 Serve each portion with Greek yoghurt and a portion of fruit of your choice.

WLA TIP

Makes 4 portions. Store any leftovers in an airtight container for up to 2 weeks.

RECIPE 02 · BREAKFAST

Protein and Fibre Yoghurt Bowl

A high-protein bowl that keeps you full for hours.

SERVES

1

TIME

5 mins

INGREDIENTS

- 125g full-fat Greek yoghurt
- 80g vanilla kefir
- 1 tsp mixed seeds
- 1 tsp peanut butter
- 1 tsp honey
- Handful of fresh raspberries
- Handful of fresh blueberries

INSTRUCTIONS

01 Add the Greek yoghurt and kefir to a bowl and mix until smooth and combined.

02 Top with the mixed seeds, peanut butter, honey, raspberries and blueberries and serve.

WLA TIP

Best enjoyed fresh. Swap the berries for whatever you have available. The vanilla kefir from Tesco is a great option, highly rated and easy to enjoy on its own as a quick drink snack. You can also use plain kefir if you prefer.

RECIPE 03 · BREAKFAST

Pina Colada Smoothie

Sunshine in a glass, blended in under two minutes.

SERVES

1

TIME

2 mins

INGREDIENTS

- 1 banana
- 80g pineapple chunks, canned or fresh
- 150ml coconut milk
- 2 tbsp full-fat Greek yoghurt
- A few ice cubes
- 1 heaped tsp desiccated coconut

INSTRUCTIONS

01 Combine all ingredients in a blender.

02 Blend until smooth, around 1 minute. Serve immediately.

WLA TIP

Advance prep. Freeze some ice cubes the night before so the smoothie blends thick and cold.

RECIPE 04 · BREAKFAST

Multigrain Hoops Cereal and Fruit

A lower-sugar cereal that still feels like a treat.

SERVES

1

TIME

2 mins

INGREDIENTS

- 30g M&S Only... Ingredients Multigrain Hoops
- 125ml milk of your choice
- Your choice of topping (a handful of berries, 1 banana, 30g dried fruit, etc.)

INSTRUCTIONS

01 Place the cereal in a serving bowl and pour over the milk.

02 Add your fruit to the bowl, or serve on the side, and enjoy.

Lunch Recipes.

RECIPE 05 · LUNCH · FAMILY FAV

Weekend Brunch

A proper weekend plate, full of flavour and no bloat.

SERVES

1

TIME

15 mins

INGREDIENTS

- 2 sausages (chicken, pork, turkey or vegetarian)
- 4 mushrooms
- 4 cherry tomatoes
- 2 eggs
- 1/2 avocado

INSTRUCTIONS

01 Cook the sausages as per the packet instructions.

02 Grill the mushrooms and tomatoes.

03 Slice the avocado.

04 Poach the eggs (eggs can also be fried, scrambled, made into an omelette or boiled).

05 Serve everything together and enjoy.

WLA TIP

Want to remove the meat? Replace the sausages with 2 vegetarian sausages or any vegetarian alternative from the food swap list.

RECIPE 06 · LUNCH · 10 MIN OPTION

Cheesy Fried Eggs

Melty cheese, runny yolks, fresh side salad.

SERVES

1

TIME

10 mins

INGREDIENTS

- 1 tsp olive oil
- 2 eggs
- Salt and pepper for seasoning
- 30g cheddar cheese, grated

To serve

- Handful of rocket
- 6 cherry tomatoes, halved
- 1/2 small avocado, sliced
- 1 tsp balsamic vinegar (optional)
- Or any salad ingredients you have

INSTRUCTIONS

01 Heat a non-stick frying pan over medium-low heat and add the olive oil.

02 Crack the eggs into the pan and cook to your preference (sunny side up or over easy).

03 Season lightly with salt and pepper, then sprinkle the grated cheddar evenly over the eggs.

04 Cover the pan with a lid for 30 to 60 seconds to let the cheese melt.

05 Add the rocket, tomatoes and avocado to a plate for a simple side salad. Drizzle with balsamic vinegar if using.

06 Once the eggs are cooked and the cheese has melted, carefully transfer them onto the plate and serve immediately.

RECIPE 07 · LUNCH · BATCH PREP

Coronation Chicken Salad

Lightly spiced, batch friendly, perfect for the prep.

SERVES

1

TIME

10 mins

INGREDIENTS

- 1 heaped tsp mayonnaise
- 1 heaped tbsp full-fat Greek yoghurt
- 1 heaped tbsp mango chutney
- 1/2 tsp curry powder
- 1 tsp soy sauce
- Black pepper for seasoning
- 100-130g cooked chicken breast, sliced
- 1/2 red onion, thinly sliced (optional)
- 1 handful of mixed salad leaves
- 6 cherry tomatoes, quartered
- 1/2 pepper (any colour), thinly sliced
- 1/2 cucumber, diced into bite-sized pieces
- 1 heaped tbsp flaked almonds

INSTRUCTIONS

01 Add the mayonnaise, Greek yoghurt, mango chutney, curry powder, black pepper, soy sauce and a drop of water to a bowl.

02 Mix together, taste and add more black pepper to season if you like.

03 Add the sliced chicken and red onion (optional) to the bowl and mix to coat.

04 To serve, arrange the mixed leaves, tomatoes, peppers and cucumber on a plate, spoon over the chicken mixture and top with flaked almonds.

WLA TIP

Eat straight away or store the chicken mixture in the fridge until its best-before date.

RECIPE 08 · LUNCH · NO COOK

M&S Naked Chicken Caesar Salad

A shop-bought win, pick smart and eat well.

SERVES

1

TIME

2 mins

INGREDIENTS

- 1 M&S Naked Chicken Caesar Salad, or any ready-made salad
- Optional extra protein (cooked chicken, tuna, boiled eggs or cheese)
- Dressing on the side if possible

INSTRUCTIONS

01 Choose ready-made salads with a base of plenty of vegetables or salad leaves and avoid those with starchy carbohydrates like pasta, couscous, rice or potatoes.

02 If the salad doesn't already include a protein source, add one of your own. Cooked chicken, tuna, boiled eggs or cheese are great additions.

03 Be mindful of dressings, sauces and mayonnaise that often come with pre-packed salads. Ideally, pick a salad where the dressing is packaged separately so you can control how much you use.

04 Check the front of the packaging for the traffic-light system, which gives a quick overview of fat, saturated fat, salt and sugar. The more green on the label, the healthier the choice.

05 This works when eating out too. Choose a salad at a restaurant and ask for the dressing on the side.

Dinner Recipes.

RECIPE 09 · DINNER · 20 MIN OPTION

Chicken Caesar Air Fryer Gnocchi

Crispy gnocchi, smoky bacon, all the Caesar feels.

SERVES

1

TIME

20 mins

INGREDIENTS

- 125g fresh gnocchi
- 1 tsp olive oil
- Black pepper, to taste
- 100-130g cooked or roasted chicken, diced or shredded
- 2 bacon slices, grilled and diced
- 6 cherry tomatoes, halved
- 1/2 red onion, finely sliced
- 1 tsp Italian herbs
- 1 heaped tbsp real Caesar dressing
- 1 heaped tbsp Greek yoghurt
- A large handful of rocket
- 30g parmesan

INSTRUCTIONS

01 Preheat the air fryer to 200C / 392F.

02 Toss the gnocchi with the olive oil and a pinch of black pepper. Spread out in a single layer in the air fryer basket and cook for 10 to 15 minutes, shaking halfway through, until golden and crispy on the outside.

03 Prepare the salad base. In a large bowl, add the chicken, grilled bacon, cherry tomatoes and red onion. Season with black pepper and Italian herbs.

04 Add the Caesar dressing and Greek yoghurt to the bowl and toss everything together until evenly coated.

05 Add the rocket and crispy gnocchi to the bowl and gently toss through.

06 Taste and add additional seasoning if needed.

07 Transfer to a bowl, sprinkle with parmesan and serve immediately.

WLA TIP

No air fryer? Heat 1 tsp olive oil in a non-stick pan over medium-high heat and cook the gnocchi for 8 to 10 minutes, turning occasionally, until golden and crispy. To batch, store the prepped ingredients separately in airtight containers in the fridge for up to 3 days, then cook a fresh portion of gnocchi when ready to eat.

RECIPE 10 · DINNER · FAKEAWAY INSPO

One Pan Thai Red Curry Salmon

One pan, rich and warming, takeaway feels at home.

SERVES	TIME
1	*25 mins*

INGREDIENTS

- 60g wholegrain rice
- 1 salmon fillet (approx 110g)
- Black pepper, to taste
- 1 tsp olive oil
- 1/2 onion, sliced
- 1/2 tsp garlic powder
- 1 tbsp Thai red curry paste
- 1 tsp soy sauce, reduced sodium
- 1/2 tin coconut milk
- 1/2 stock cube, low sodium
- 1 tsp fish sauce
- 1 tsp honey
- 140g broccolini or regular broccoli
- 80g green beans
- Handful of spinach
- Juice of 1/2 lime
- Handful of fresh coriander, chopped (optional)

INSTRUCTIONS

01 Cook the wholegrain rice according to packet instructions.

02 Season the salmon with black pepper. Heat the olive oil in a large frying pan over medium heat and cook the salmon for 2 to 3 minutes on each side until golden but not fully cooked through. Remove from the pan and set aside.

03 In the same pan, add the sliced onion and garlic powder. Cook for 2 to 3 minutes until softened.

04 Stir in the Thai red curry paste and soy sauce and cook for 1 minute, stirring continuously until fragrant.

05 Pour in the coconut milk and crumble in the stock cube. Add the fish sauce and honey, stir well and bring to a gentle simmer.

06 Add the broccolini and green beans and simmer for 4 to 5 minutes until just tender.

07 Return the salmon to the pan, nestling it into the sauce. Add the spinach and cook for a further 2 to 3 minutes until the spinach has wilted and the salmon is cooked through.

08 Stir through the lime juice and taste test. Add extra lime for freshness or a little more soy sauce if preferred.

09 Serve over the wholegrain rice and scatter with fresh coriander if using.

WLA TIP

Store in an airtight container in the fridge for up to 2 days. Reheat thoroughly before serving. The sauce may naturally thicken in the fridge, so add a splash of water before reheating if needed.

RECIPE 11 · DINNER · EASY OPTION

Lazy Snacky Plate

Big-board energy with zero cooking required.

SERVES

1

TIME

5 mins

INGREDIENTS

- 1/4 Spanish tortilla (shop bought)
- Large handful of rocket
- 1 tomato, sliced
- 4 slices roasted peppers
- 1 tbsp pickled red onions
- 4 to 5 slices of pickled beetroot
- 1 tbsp coleslaw
- 1/4 large or 1/2 small avocado
- 30g cheese, grated

INSTRUCTIONS

01 Heat the Spanish tortilla in a pan until warmed through.

02 Add the rocket, sliced tomato, roasted peppers, pickled red onions, pickled beetroot, coleslaw, avocado and cheese to a plate.

03 Add the cooked Spanish tortilla on the side and serve.

WLA TIP

Best enjoyed fresh. Swap the tortilla for 1/4 of a quiche or another protein option such as chicken, tuna, eggs or halloumi depending on what you have available.

RECIPE 12 · DINNER · NO FUSS OPTION

No Cook Freezer Dinner

The pick-and-mix plate for evenings off.

SERVES

1

TIME

15 mins

INGREDIENTS

- Any protein from this list:
- 1 piece of breaded fish
- 1 fish cake
- 3 chicken goujons
- 3 fish goujons
- 1 chicken Kiev
- 1/4 quiche (with pastry)
- 1 vegetarian burger
- 4 falafels
- 2 sausages
- 1 plain fish fillet
- 1 plain chicken fillet
- Frozen vegetables or salad
- 1 tbsp tzatziki, coleslaw or low-sugar tomato sauce

INSTRUCTIONS

01 Pick any one of the protein elements from the ingredients list.

02 Add frozen vegetables or salad alongside.

03 Serve with 1 tbsp tzatziki, coleslaw or low-sugar tomato sauce and enjoy.

WLA TIP

If you choose 2 sausages, 1 plain fish fillet or 1 plain chicken fillet as your protein, add a carbohydrate element from the food swap list to keep the plate balanced.

The Food *Swap List*

Every single ingredient can easily be changed, just swap with foods from the same group.

The meals and recipes are flexible. Leave out any ingredients you do not enjoy, or replace with another alternative. Reduce or increase flavours to your own liking.

Fruits and vegetables can be changed. If you do not like carrots, swap with peppers; courgettes with peas, etc.

If you do not want chicken, swap with another meat. If you do not like fish, swap with another protein. Use vegetarian sausages if you don't eat meat.

You can leave out ingredients you do not want, add or decrease herbs and spices, and taste everything to suit your preferences.

Everything can be adjusted, as long as the adjustment is done within the right group, you can still get the best possible results.

Drink *Tips*

Hydration is one of the quickest wins of the reset.

Four small habits make hitting eight glasses a day almost automatic.

01

Get a pretty reusable bottle

A bottle on your desk or in your bag is a constant nudge to sip. Fill it before you leave home and you're already winning.

02

Anchor water to your routine

First thing on waking, before each meal, while you're at the computer. Tie it to things you already do and it sticks.

03

Make it fruity

Lemon, lime, orange, cucumber, watermelon, kiwi or strawberries. A few fresh mint leaves work beautifully too.

04

Eat your water

Lettuce, celery, cucumber, watermelon and grapefruit are loaded with water plus vitamins, minerals and antioxidants.

Tea & coffee count, sort of. You can have one milky coffee (latte or cappuccino) per day. Multiple teas with a little milk are fine, just keep drinking water alongside.

Snack *Tips*

Three balanced meals, with snacks only when truly hungry.

Listen to your body and respond to your own hunger signals, not the clock or the biscuit tin.

01

Mid-morning

Most people don't need a snack between breakfast and lunch. If you're genuinely hungry, a piece of fruit or raw veg is plenty.

02

Afternoon

The lunch to dinner gap is longer, this is where the afternoon "bigger" snack lives. It heads off the 3pm slump and stops you reaching for sugar.

03

Very active?

If you exercise regularly, you'll likely benefit from an additional bigger snack to fuel your energy needs.

04

Less active?

If you're mostly sedentary, you may find you need fewer snacks. Hunger is the dial, not habit.

Bananas only once a day, please. They're more calorie-dense than other fruits, one is plenty.

Final tips

- Eat when you're hungry, not out of boredom or habit.
- Pause and check in with your body before reaching for a snack.
- Aim for nourishment, every bite is a chance to fuel your body well.

Fruit & Veg *Snack Inspiration*

Apples	Asparagus	Aubergine
Banana (max 1 per day)	Beetroot	Blackberries
Blueberries	Bok choy	Broccoli
Carrots	Celery	Cherries
Courgette	Cranberries (fresh)	Cucumber
Grapefruit	Grapes (1 cup)	Kelp
Kiwi	Mandarins	Mango
Melon	Mushrooms	Onions
Orange (1 large)	Pears	Peppers
Pineapple (1 cup)	Plums	Radishes
Raspberries	Spinach	Strawberries
Sugar snap peas (1 cup)	Tomatoes	Watercress

Bigger *Snack Inspiration*

Some women only need one bigger snack per day, others more. If you exercise regularly you may need more than someone less mobile.

We recommend a bigger snack between lunch and dinner to prevent sugar cravings. You may need another in the evening. Some days you may need two bigger snacks and some days one, tune in and be flexible.

What balanced *blood sugar* gives you.

Maintaining balanced blood sugar levels is a key component of overall health and wellness. Fluctuations in blood sugar can impact many aspects of your daily life, from your energy levels to your mood and even your long-term health. By focusing on keeping your blood sugar steady, you can enhance your well-being and support your fat loss goals.

Here's why balanced blood sugar is so important:

01
Reduced desire for sugar

02
Improved mood

03
More control around food

04
Weight stabilises / weight reduction

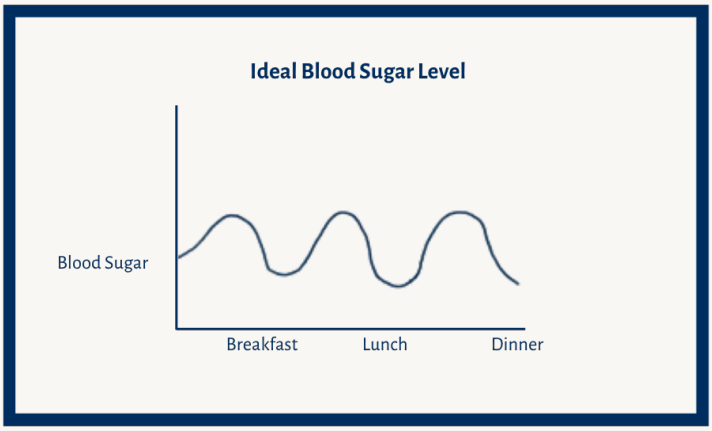
05
Reduced cravings

06
Appetite falls and stabilises

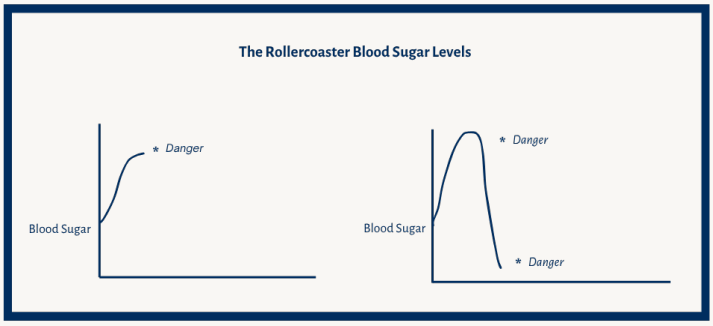
07
No extreme highs followed by severe plummets

Easily *Reduce Sugar Cravings* in 5 Days

When the right amount of food is consumed at the right times this will result in balanced blood sugar levels throughout the day (when less sugar is consumed overall). The body can handle some sugar but excessive amounts have an impact.

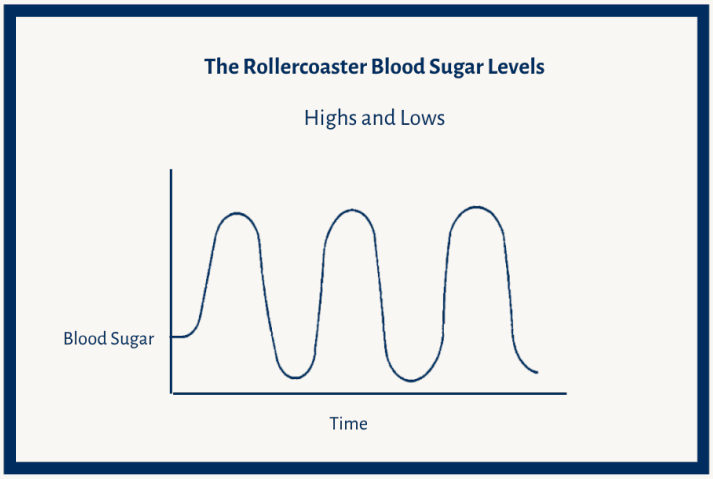


- [ ] Peaks after each meal or snack (think balanced meals).
- [ ] Small peaks and troughs.
- [ ] Blood sugar level dips = signal to eat.



- [ ] High spike, a more volatile reaction to the muffin.
- [ ] Body releases a big hit of insulin to clear the sugar.
- [ ] Extreme high followed by extreme slump.

The Rollercoaster, Highs and Lows



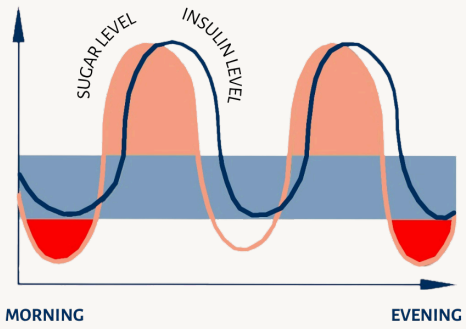
- [ ] Extreme highs.
- [ ] Extreme lows.
- [ ] Low mood / high mood.
- [ ] Unbalanced overall.
- [ ] More sugar cravings and generally eating more sugar overall.

Side note, weight loss can be extremely difficult here.

Why *Breakfast* Is Important

When breakfast is skipped, blood sugar levels will continue to dip and it will be more likely that foods high in sugar for energy will be consumed. Having breakfast within an hour of waking will allow blood sugar and insulin levels to stabilise.

In addition, having a protein element with breakfast will help with satiety levels (feeling of fullness) and sets the body up for the day, meaning there will likely be less snacking on less nutrient-dense options throughout the day.

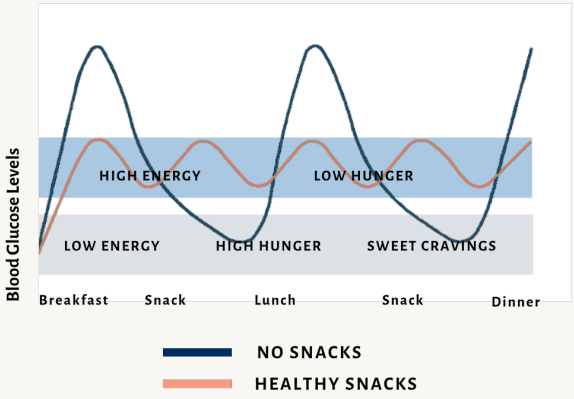


- [ ] Blood sugar levels dip due to skipping breakfast.
- [ ] This results in looking for something to give a quick "hit" to stop feeling shaky, hungry, tired, have crazy cravings and so more sugar is reached for.
- [ ] High spike followed by a big hit of insulin to remove the sugar from the blood to the cells.
- [ ] Extreme high followed by extreme slump.
- [ ] The cycle continues.

Why *Snacking* Is Important

Snacking is really important as it helps keep blood sugar levels steady during the day. If food is eaten at regular intervals throughout the day, having a dip in the blood sugar levels will be less likely and therefore reaching for less nutrient-dense foods for a kick of energy will not happen.

Snacking is important to bridge the gap between breakfast and lunch and then lunch and dinner. However, snacks should not be eaten just for the sake of it, snacking is supposed to tide the body over until the next meal.



- [ ] Gentle peaks after each meal or snack (think balanced meals).
- [ ] Small peaks and troughs.
- [ ] A blood sugar dip is your body's signal to eat, not stress.

The *WLA Nutrition* Formula.

At The WLA, we use our unique Nutrition Formula to help reduce sugar cravings in as little as 3 days and support visible weight loss within 5 days.

This formula is built around portion control and a healthy balance of all food groups, carbohydrates, protein, and fats, rather than restriction or elimination.

The WLA Nutrition Formula focuses on building meals that are high in protein and adjusted to be low, medium, or higher in carbohydrates, depending on the meal and the individual. This structure teaches you how to create nutritionally balanced meals that support fat loss, improve health, and help reduce sugar cravings, while still being realistic and sustainable long term.

Your 5 Day Fat Loss Reset Guide has been designed using this formula for maximum results. You don't need to calculate or overthink anything, simply follow the guide and the setup provided.

The WLA Nutrition Formula focuses on

- Reducing carbohydrate intake (not eliminating carbohydrates, just adjusting amounts).
- Reducing processed foods and added sugars.
- Prioritising whole, nourishing foods including:
  - Wholegrain carbohydrates
  - Lean meats and fish
  - Full-fat dairy
  - Healthy fats
  - Fruits and vegetables
- Including snacks when guided by hunger signals.
- Using an 80:20 approach across the week.
- Drinking adequate water (around 8 glasses per day).
- Including regular daily movement.
